

REMARKS

The above amendments are entered to cancel claims prosecuted in the parent priority application that is identified in the Amendment to the specification. Support for the new claims is found at pages 7 and 8 of the specification.

The Examiner is requested to consider and advise the applicant on the appropriateness of amending the title of the application.

Prompt entry of this Amendment and issuance of an office action on the substantive examination of this application is respectfully requested.

A new Abstract page is provided that describes the subject matter of the claims.

Respectfully submitted,
